☒ Can Approve Reimbursements

Approval authority normally follows the reporting hierarchy automatically (has direct reports => can approve). This checkbox is an Admin override — see docs/hierarchy-sync-design.md §3.

Again make the rounded corners more consistent

Chage the greyish black colors within the system, cause it looks like the feature cant be accessed, either choose different colors

Change the greyish black colors within the system, cause it looks like the feature can't be accessed, either choose different colors.

Also the workload doesn't have decimals, can you modify it so it can be like a daily progress bar instead

Instead of a separated approver inbox, should we just modify the dashboard to Approvers Dashboard
Under the approver dashboard the pending should show all claims including the advances & liquidation instead of separate tab for the two.
